SUPPORT THE ATHLETES OF SPECIAL OLYMPICS!

On May 3rd, a group of Asset Plus employees joined IREM Young Professionals to volunteer in supporting the many athletes at the Special Olympics. The event was filled with fun and heartfelt moments as the athletes participated in several track and field events, soccer and more.

The Special Olympics is an international non-profit organization that is dedicated to empowering individuals with intellectual disabilities to become physically fit, productive and respected members of society through sports training and competition.

After spending an afternoon watching and supporting these athletes, we all walked away feeling a part of something special and feeling blessed that we had the opportunity to lend a helping hand.
